Nearest station → Nagoya Municipal Subway Sakuradori Line "Tokushige Station", Meitetsu Nagoya Main Line "Zengo Station"

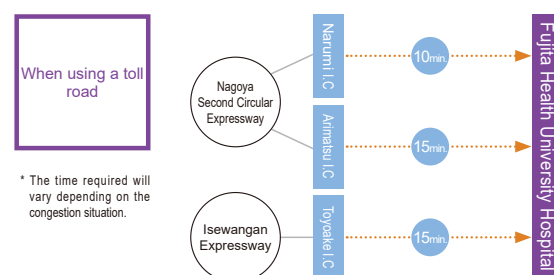

● For the Meitetsu Bus, take the bus bound for "Fujita Health University Hospital" or "Akaike Station (via Fujita Health University Hospital / Tokushige Subway)" from Platform ①.  
\* Please be careful not to mistake it for "Chokushidai" and "Akaike Station (via Yufukuiji)".

● Please take the Meitetsu Bus bound for "Zengo (via Fujita Health University Hospital)".

By car:

- About 10 min. from "Narumi I.C." on the Nagoya No. 2 Circular Expressway, or about 15 min. from "Arimatsu I.C."
- About 15 min. from "Toyoake I.C." on the Isewangan Expressway (exit from Tokyo bound)
- If you are heading from Yokkaichi to Toyota on the Isewangan Expressway, use the Nagoya Minami JCT (you cannot go to Toyoake City from Toyoake I.C.).

## Affiliated University Hospitals

### Fujita Health University Bantane Hospital

3-6-10 Ootobashi, Nakagawa-ku, Nagoya-shi, Aichi 454-8509 TEL: +81-52-321-8171 Number of beds: 370 beds

We provide high-quality community medical care in central Nagoya. In 1930, when the insurance system was not yet in place, the Banbuntane Hotokukai Foundation was established as "Bantane Hospital" for medical relief in the local community. After that, in 1971, when the school corporation Fujita Gakuen established the Faculty of Medicine, the management was transferred to this school and became "Fujita Gakuen Nagoya Health University Bantane Hospital". Currently, the name of the hospital has changed to Fujita Health University Bantane Hospital, and it is familiar to local residents as "Bantane-san".

Authorized beds 370

424-1, Odori-cho, Tsu-shi, Mie 514-1295 TEL: +81-59-252-1555 Number of beds: 218 beds

The Nanakuri Memorial Hospital, which was established in April 1987, is a specialized university hospital that focuses on convalescent rehabilitation with 150 beds and palliative care with the slogan "Smile Again". We are constantly working on pioneering medical care such as robot rehabilitation, intensive rehabilitation 7 days a week, and hybrid palliative care. Since 1998, we have opened a home care support center, a home care support office, and outpatient rehabilitation, and are also focusing on the long-term care insurance field. We also provide home-visit rehabilitation, home-visit nursing, and home-visit nursing care to provide community-based convalescent medical care.

Authorized beds 218  
<Number of patients>  
Number of inpatients Average daily 204.0 (FY2020 results)
